

**Spring Creek Homeowner's Association
2011 Nomination Form**

Unit(s)/Lot(s) Owned: Lot 3

Name: Ron Harris

Office sought : SCHOA Board

Address: 2090 N. Spirit Dance Road

P.O. Box 12140
Jackson, WY 83002

Telephone: 307-739-8510

Occupation: Principal and Consulting Actuary (mostly retired)

Candidate's Goal: My primary goal as a Director would be to continue the good work of the current Board in contributing to the preservation, maintenance, and enhancement of Spring Creek Ranch. In pursuing this primary goal, I believe that the Board needs to place specific focus on our collective vision for, and the future needs of, SCR as a reasonably developed and maturing community. Within this broad context, particular matters warranting attention in the near term include our infrastructure (especially our nearly 30-year-old water system) and overall landscape management issues (including dealing with maturing stands of trees).

Comments: It has been my honor to serve the SCHOA in the past on both the Architectural Committee and the Board, including a term presently on the AC. I bring a commitment to inclusion of the Homeowners in dealing with matters such as the goal and focus areas described above, and to transparency in operation. In addition, I believe that I bring some "institutional memory" related to the progression of SCR's development over time, which will prove useful to have on the Board. If elected, I will step down from the AC, to be replaced by another Homeowner.

For those of you who may not know me personally, our family has made a long-term commitment to Jackson in general, and to SCR in particular. Within 2 months after our first visit to Jackson in 1989, we purchased a condominium at SCR. We subsequently purchased Lot 3 and built a home, to serve as a second home while we had children in school and I continued full-time consulting, and then eventually to become our primary residence. Early last summer, we were able to realize our dream and move here permanently. My interest in serving on the Board flows from that long-term commitment to SCR.
