Candidate's Goal:

To continue to fairly apply our Architectural Guidelines for all homeowners both existing and new.

To continue to implement our new recently modified guidelines with the ongoing goal of making the submittal and construction process consistent and easy to understand.

Comments: My perspective as a SC Homeowner and an architect who specializes in high end residential architecture around the country often working with other homeowner's guidelines can help me make our process clear and fair.

Our Committee has worked hard to clean up the guidelines removing inconsistencies as well as developing a much more concise documented submittal and constructions process with the goal of making the process more understandable and therefore more apt to be adhered to. I really want to thank all the committee members and our staff for all their hard work.
